

## **Precoat Metals**

### **Environmental Policy**

Precoat Metals is committed to (1) comply with all applicable compliance obligations and with other requirements to which we subscribe and that are related to its environmental aspects; (2) continual improvement in our environmental management activities to enhance environmental performance; and (3) pollution prevention in all of our business activities.

Within the defined scope of its environmental management system, we will endeavor to:

- Include the consideration of environmental issues in all business strategies and initiatives, and setting environmental objectives and goals.
- Ensure that protection of the environment is firmly embedded in both the company's and all employees' culture and will endeavor to influence its suppliers and customers in a similar strategic environmental manner.
- Prevent pollution, reduce waste and minimize the consumption of natural resources to the extent possible and practical.
- Consider the wider global impact of all our activities including those of our supplier's customers and other stakeholders.
- Educate, train and motivate employees to carry out tasks in an environmentally responsible manner.
- Encourage environmental protection among suppliers and subcontractors with consideration to life cycle impacts of their aspects and activities.
- Encourage and enhance biodiversity and ecology.
- Communicate this environmental policy to all persons working for the organization and make it available to the public.

Implementation of this environmental policy is a primary management objective and the responsibility of all employees of Precoat Metals.
