

Precoat Metals

Precoat Metals

Squeaky Clean

Coil coating of surface critical applications such as appliances requires professional expertise and advanced technology with clean operations.

Our Hawesville, Kentucky facility is designed to service those demanding applications. The coil coating line provides a 62-inch-wide, state-of-the-art processing technology, including in-line pre- and post-tension leveling, in-line embossing (Seville pattern), and slitting services. Additionally, the location can be accessed by truck, rail and barge.

We continue to focus on excellent customer service so you can meet your tight deadlines and enjoy the highest quality in coatings.
