**Precoat Metals**

## Building for the Future

Our high speed 56-inch-wide coil line in Weirton, West Virginia is close to major steel sources to serve the building products market. Besides

providing quick-change coating capability, this facility can also in-line tension level your metal when flatness

is critical. We also provide slitting services with our state-of-the-art,

72-inch-wide slitter. And when transportation options are critical,

Weirton is capable of barge, rail and of course truck.

WEIRTON

*We continue to focus on excellent customer service so you can meet your tight deadlines and enjoy the highest quality in coatings.*
